

8TH MINI-SYMPOSIUM ON LIQUIDS 2014. 7. 5

B122 Conference Room, Faculty of Science, Tsushima Campus, Okayama University

Confirmed Speakers:

T. Akimoto (Keio):

Anomalous water dynamics near the surface of a cell membrane;

A. Ikeda (Kyoto):

Criticality at the random close packing of spheres;

N. Miyamoto (Fukuoka Inst. of Tech.):

Swelling and exfoliation of layered materials into liquid crystalline colloids of inorganic nanosheets;

N. Nakagawa (Ibaraki):

非平衡定常系への操作的仕事と線形応答関係の破れ;

Y. Ohmasa (Kansai):

Surface waves on complex liquids;

K. Sakota (Kyushu):

Combined effects of macromolecular crowding and salt-addition on the random coil-globule transition of a thermoresponsive polymer
